FULL METAL SERIES

ERMO
Defense and Firearms Industry LLC.

AFFORDABLE ACCURATE, DEPENDABLE, LIGHT WEIGHT

The X-Fire is the perfect harmony of reliability and comfort providing unlimited shooting pleasure with its dual-recoil spring and extreme safety with World famous Safe Action system.

With its expertly crafted, tennifer Coated, perforated 4140 Steel Slide and space-grade, eloxal+fixage plated aluminum-milled frame, the X-Fire promises a lifetime service. Full metal configuration, low barrel bore axis, and aggressive texture on the grips provide maximum control and faster aim recovery while shooting.

The pistol comes with interchangeable grip panels for a more customizable experience. Original aluminum grip panels can also be found as aftermarket accessories. The X-Fire is Glock® compatible and accepts any Glock® Magazines in any rounds. The slide comes standard with TruGlo fiberoptic sights and 3 RMR plate cuts to directly mount a sight instead of impractical plates or adapters. The X-Fire allows the most popular red-dot sights brands to be mounted:

- Truglo
- Docter
- Meopta
- Insight
- Vortex
- C-More
- Trijicon
- Holosun

Very elegant hard plastic case in an carton box includes 2 pieces 15 rounds magazines, 3 plates, cleaning kit and spare color grip panels.

The Glock® compatible barrel is nitride, honed, burnished and plated for an unparalleled accuracy. Extended and threaded barrel sets can also be purchased as original X-FIRE Accessories. The X-Fire is the outcome of meticulous engineers' hardwork, competitive shooters' torture tests and law enforcements' precious advice.
