Ermox Defense has justified pride of launching its new 20x11 pistol, X-POWER, which is a member of our full metal series of purpose built Duty, Tactical and Professional pistols. Each and every part of our guns is manufactured in our state of the art CNC machining facility with very strong cutting-edge production infrastructure inheriting 100 years experience and knowledge.

The X-POWER is the result of Ermox' archaic manufacturing experince and craftsmanship, a perfect harmony of steel and aluminum resultin in the next evolution of double stack 1911's. These features set our firearms apart from the rest in both quality and performance!
